

Assignment: PDF Reader Application

Objective: Create a Flutter application where the user can upload a PDF file, and the application will read and extract specific details from the PDF. The extracted details should be displayed on the UI.

Details to Extract:

1. Account Number
2. Statement Period
3. Closing Balance
4. Date
5. Transactions (including Debit, Credit, and Balance for each transaction)
6. Balance

Requirements:

1. **File Upload:** Implement functionality for the user to upload a PDF file.
2. **PDF Parsing:** Extract the required details from the uploaded PDF.
3. **State Management:** Use the Bloc pattern for state management.
4. **UI:** Display the extracted details in a user-friendly manner.
